

# LOCKUP - Drawing Lock

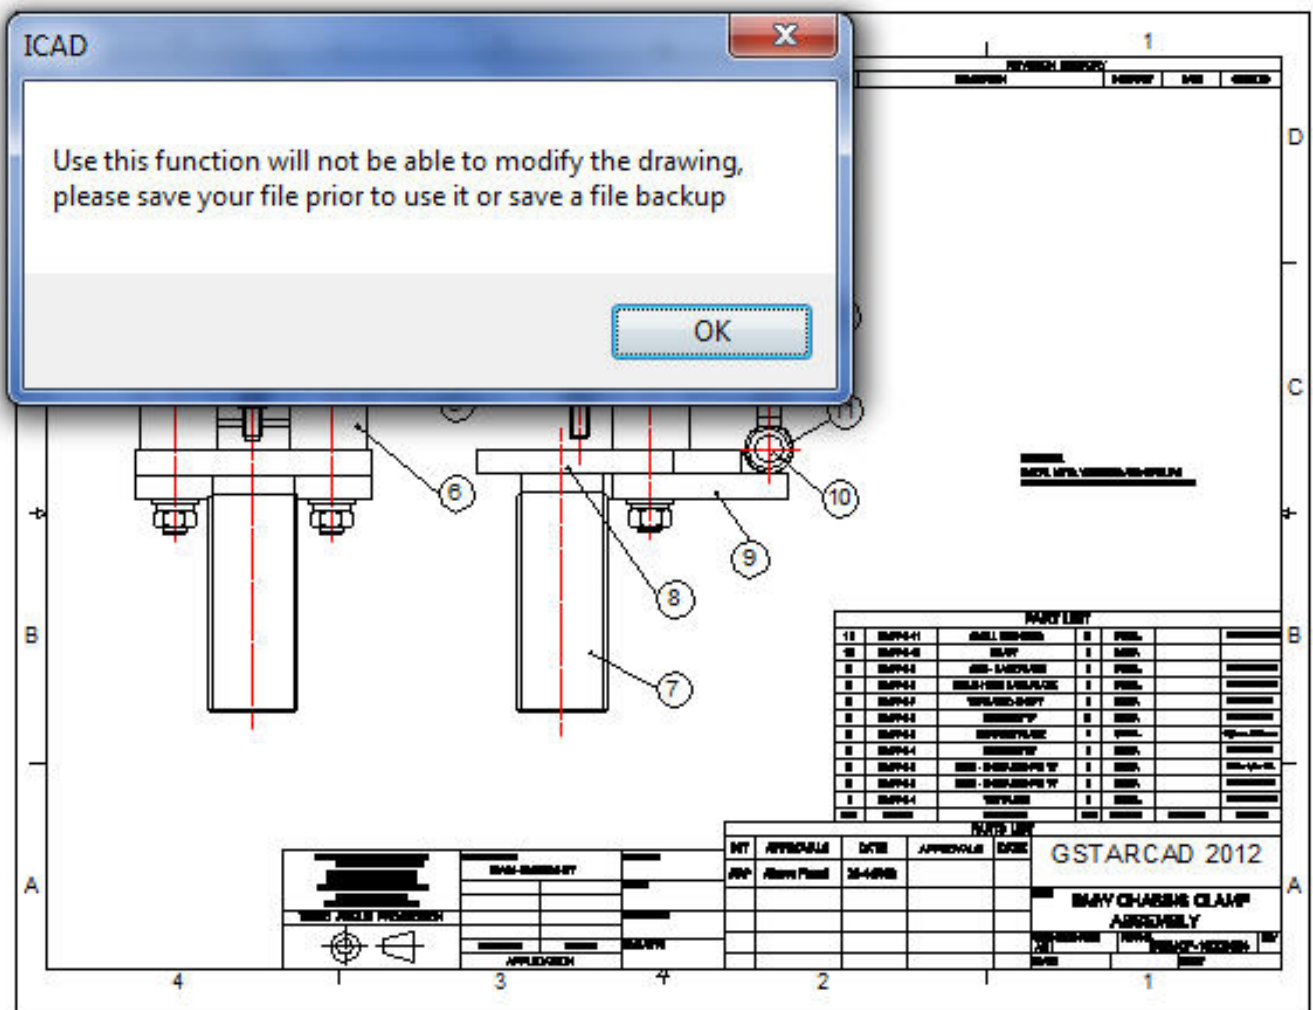

1047 kbadmin April 5, 2017 [Express Tools](#) 0 4561

Sometimes a designer sends drawings to other people, but doesn't want others to modify the drawings. The "Drawing Lock" function can turn the drawing into a whole block. You can't explode it or modify the objects of the original drawing. It is a good way to prevent others from modifying the drawing.

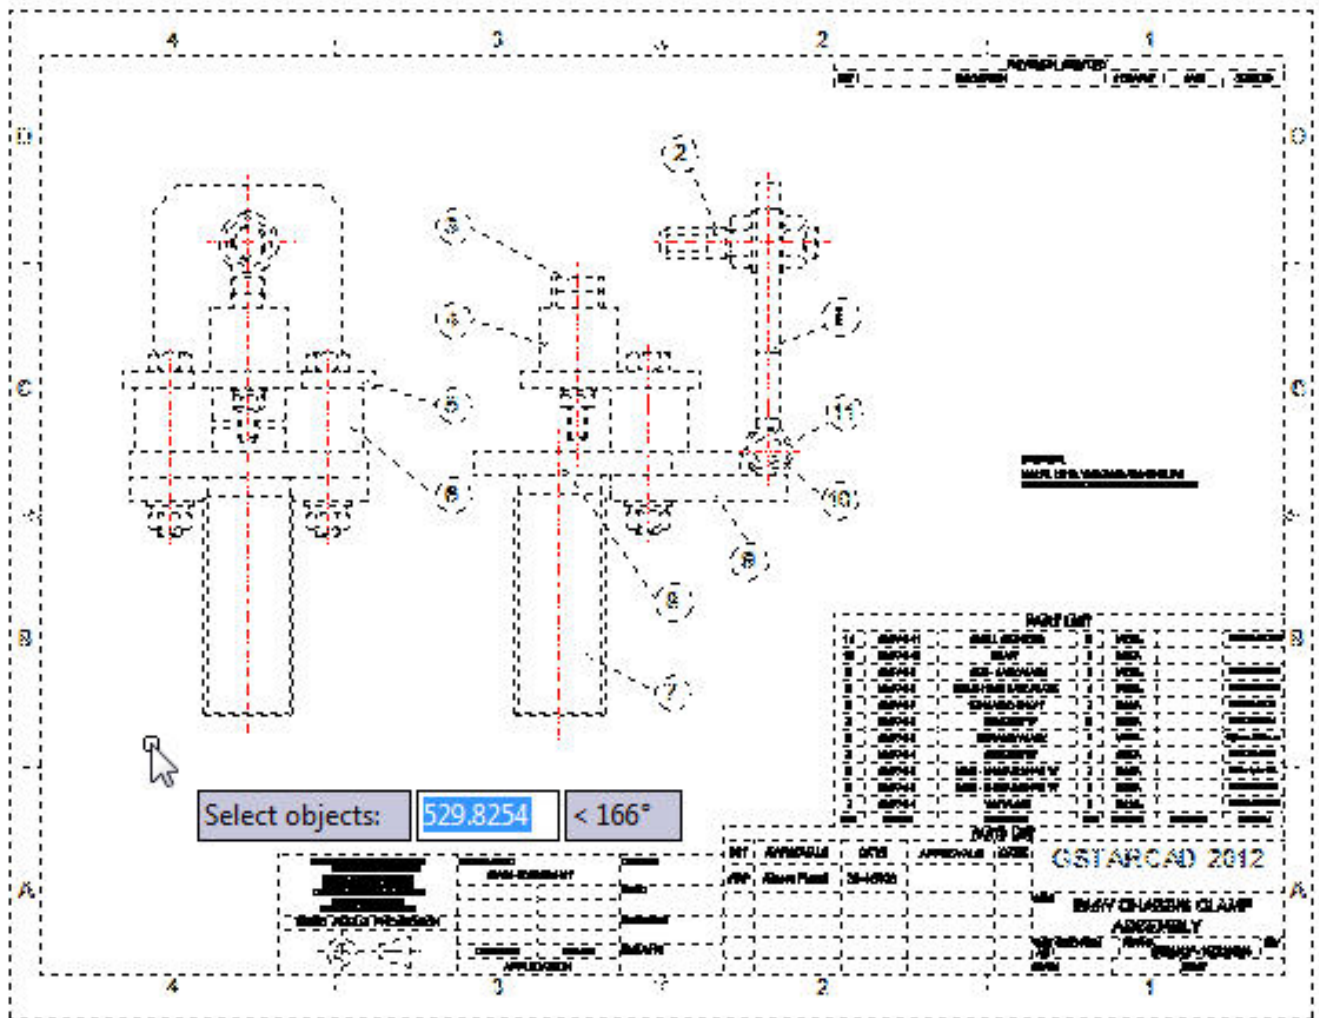

Menu: Express tools>Drawing Tools>Drawing Lock

Command Entry: LOCKUP

Once the command is started, the follow wizard will be displayed:

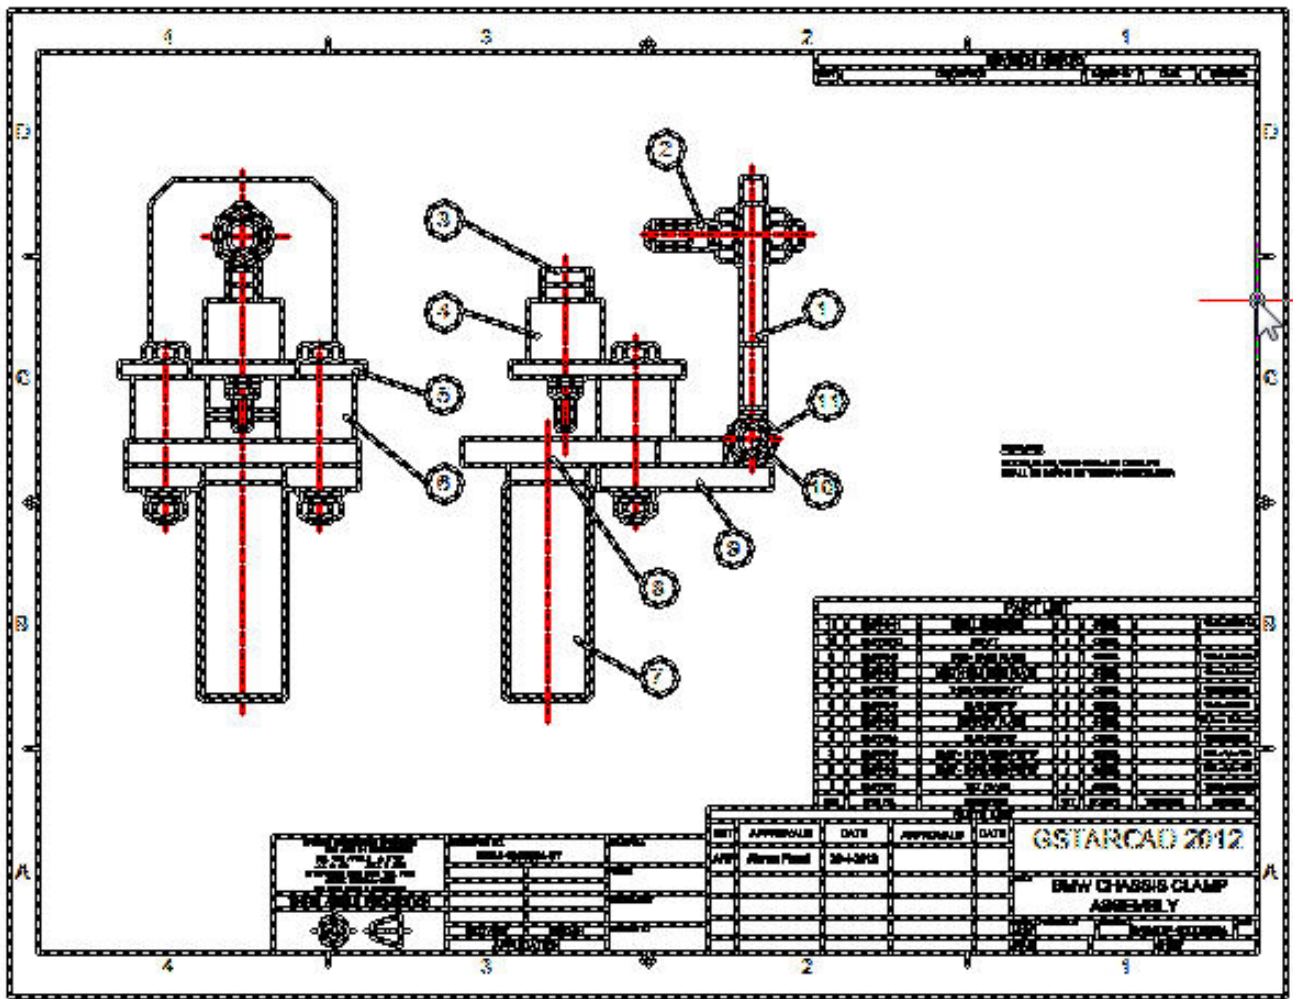

Select objects: Select all the objects in the current drawing to be locked and press Enter.

Select objects: 529.8254 <math>< 166^\circ</math>

CSSTARCAD 2012

BATTERY CHARGER CLAMP ASSEMBLY

Please save your drawing before using this function, because the locked drawing can't be modified.
