

Determine AutoCAD DWG file version.

1162 kbadmin May 3, 2016 [Tips & Tricks](#) 0 4579

The first 6 bytes of a DWG file will indicate the version used.

1. Open the DWG file in Notepad or Notepad++ (Recommended)
2. Compare the first 6 bytes against the following list to find out the version that last saved the file. Note: This may not be the same version that created the file.
