GstarCAD dongle upgrade for network version

Please follow the steps below to upgrade the **Network dongle** from GstarCAD old version to the latest GstarCAD.

1. Insert Dongle;
2. Unzip the file: NetDogUpdateTools.rar
3. Double click FieldExUtil.exe
4. You would see this Window:

5. Click "**Get Locking Code**," and click an icon to save one. "LOC" file to your computer;
6. Forward this ".**LOC**" file to the local distributor;
7. You will get a response with the ".**LIC**" file;
8. Click the icon to upload the second ".**LIC**" file;
9. Click "**Update License**" to finish.

From step 1 to Step 9, please DO NOT close this window.
