## Network Licenses Borrow and Return (2020 - 2022)

2607 kbadmin September 30, 2019 Activate / Deactivate 0 4508

GstarCAD provides the function that you can borrow and return licenses from the server at the user client. In some special cases, you need to transfer one or more nodes to an individual computer.

For example, you need to activate GstarCAD on a laptop for a certain time. It is great flexible to use this function. There are 2 steps to use it: **Borrow License** and **Borrowed Return**.

#### **Requirement conditions**?

- 1. GstarCAD has to be installed on the machine or computer.
- 2. It has to be in the same local area network and connect to the server. Click **Help**  $\rightarrow$  **Register** to open GstarCAD License Manager in GstarCAD.
